WELCOME MESSAGE

Welcome to the Remmogo Signaling and Branding company profile. We are a leading provider of innovative signage and branding solutions, specializing in vehicle emergency lighting installation and maintenance. We help businesses enhance their visibility, improve safety, and create lasting impressions. Explore our portfolio and discover how we can elevate your brand presence and ensure the safety of your fleet.

OUR VISION

To be the preferred partner for businesses seeking to enhance their brand presence and achieve their goals through impactful and innovative signage and branding solutions, while establishing ourselves as the most respected and trusted provider in the South African market.

OUR MISSION

To become the go-to signage and branding partner for top South African corporations, we aim to enhance brand image, improve efficiency, and contribute to client success. We will exceed expectations through innovative design, strong project management, and outstanding customer service, leveraging our expertise in large-scale projects like vehicle branding, corporate identity, and wayfinding systems to forge lasting partnerships with respected businesses.

OUR SERVICES

Vehicle Emergency Light Installation & Maintenance: We provide expert installation and ongoing maintenance of high-quality emergency lighting systems, including LED lightbars, strobes, and sirens. Our service covers a wide array of vehicles, from emergency services to commercial fleets, ensuring optimal performance and regulatory compliance. We guarantee your crucial vehicles remain fully operational and highly visible, enhancing safety and responsiveness on the road.

Vehicle Branding: Transform your fleet into powerful mobile advertisements with Remmogo's dynamic vehicle branding services. We design and expertly apply impactful semi and full vehicle branding as well as decals for the more budget conscious client. We can create high quality graphics for our clients or work with the client own graphics. We work on cars, motorbikes, vans, trucks and buses. Using high-grade, durable vinyl, we ensure your brand achieves maximum visibility and a strong, memorable visual presence wherever your vehicles travel.

Company Signage & Branding: We provide comprehensive signage solutions, including logo design and various signage like illuminated signs, all produced in-house for quality control and tailored solutions.

Two-way radio solutions: We offer professional installation and precise programming of leading Hytera and Motorola radio systems. As authorized resellers of both brands, we guarantee genuine products, expert technical support, and tailored configurations designed to meet your specific communication needs and enhance operational efficiency.

Full vehicle vinyl wrapping & PPF application. We also offer premium full-vehicle vinyl wrapping and high-performance Paint Protection Film (PPF) application. Whether you are looking to redefine your brand through a custom color change or preserve your factory paint with our high quality PPF, our expert technicians deliver a flawless, edge-to-edge finish.

Light panel beating and spray painting. We specialize in light, non-structural panel beating and professional spray painting. From minor dent repairs to panel replacement and full-surface spray painting. Our team is dedicated to restoring your vehicle's appearance with precision and care, ensuring every job is completed to an exacting high standard.

Our **WORK**

At Remmogo, we bring brands to life across all mediums. From the smallest motorbike to the largest bus, we masterfully apply vehicle branding solutions. Our expertise extends beyond vehicles, encompassing a comprehensive range of signage options. From eye-catching office interiors to robust exterior signage designed to withstand the elements, we deliver impactful and durable solutions. No branding brief is too complex or too challenging for our skilled team.

Furthermore, we excel in vehicle emergency light installation and maintenance. As a trusted partner of Whelen, a global leader in vehicle emergency lighting, we provide expert installation and maintenance services utilizing cutting-edge technology and adhering to the highest safety standards.

Our Partners

Meet The
Management team

Nyiko Mabobo

Managing Director

Nyiko Mabobo began his career as a Field Technician at a telecommunications company, progressing through promotions due to his dedication. He then transitioned to consulting and gained expertise in the vehicle emergency lighting industry with a leading installer in South Africa. Driven by entrepreneurship, he founded Remmogo Signaling & Branding.

Nkhensani Mabobo

Director

Khensani Mabobo is a dedicated Director skilled in operations and project management. She has a proven track record in successful project delivery, efficiency enhancement, and client relationship building. With degrees in Business Administration and certifications in Business Management and Design, she effectively cultivates talent and promotes growth through collaboration.

Tano Esposito

Head of Operations

Tano Esposito has a rich background in sales and marketing. In the late 2000s, he enhanced his skills with a technical foundation, becoming a Senior Technician. He later joined Remmogo Signaling as a Supervisor, where he developed his technical and operational expertise, ultimately earning a promotion to Head of Operations due to his consistent growth and leadership.

Mapaseka Motloba

Head of Sales & Marketing

After completing her university studies, Miss Mapaseka Motloba built a successful media career, focusing on Sales and Marketing. She gained experience in business development, strategic media planning, and training, while developing strong leadership skills. Mapaseka excelled in challenging sales situations, negotiated complex contracts, and fostered long-term client relationships based on integrity and trust.

Zakes Mlati

Technical Operations Manager

Zakes joined Remmogo in 2025, bringing a unique blend of technical, managerial, and hands-on automotive expertise. With a background spanning IT support, sales, and construction project management, he offers a holistic approach to complex signaling and branding projects. Zakes' additional experience in panel beating and vehicle detailing ensures a high standard of quality control and technical insight, reinforcing Remmogo's commitment to excellence across all service sectors.

Vusi Mdhlovu

Branding Manager

Vusi Mdhlovu pairs his long-standing tenure at Remmogo with vast industry knowledge to lead our branding division. Overseeing a specialized team of applicators and cutters, Vusi manages the full spectrum of our branding portfolio—from singular vehicle branding to complex, large-scale fleet rollouts—leveraging his established industry network to deliver superior results.
